

10/01/12 Park Work Session 7:30 PM Town Hall

ATTENDANCE: Mayor Mike Beall, Council members David Lawrence and Violet Dawe, Heike Mueller, Lorena de Santa, John MacKay, Karl Berg, and Mark Campbell

Town Hall footprint:

Septic field, storm water drainage, parking, encroachment on current park usage. Mark Campbell said we have plenty of land for storm water runoff. Flip flopping the town hall building to the proposed septic field area offers options to preserve the wooded portion of landscape. Closer to Hillsboro and visibility from road.

Improvements:

Those in attendance favored these improvements, in order of priority:

1. Volleyball court – sand - 30' X 60'
2. Exercise stations along current path (including unpaved portion)
3. Walking trails in wooded area
4. New “Rules” sign and instruction signs for exercise stations

Also discussed: disc golf, hard basketball court, horse trail in woods, bike trail in woods

The work session concluded at 9 pm.
